

*Handcrafted* POLY FURNITURE

# Welcome!

At Sonrise Poly, we believe that quality sells itself. When you offer a product that is visually appealing, built to last, and crafted with care, success naturally follows.

We've spent years perfecting the art of outdoor poly furniture, combining durability, comfort, and style. Our experience gives us a deep understanding of the marketplace and the needs of our customers. We're always looking for ways to make our furniture even more comfortable and enjoyable to use, and your feedback helps us refine our designs and expand our product offerings to better serve you and your customers.

If you're looking for outdoor furniture that delivers both quality and value, your search ends here. We invite you to explore our selections—and thank you for choosing Sonrise Poly!

# ABOUT POLY

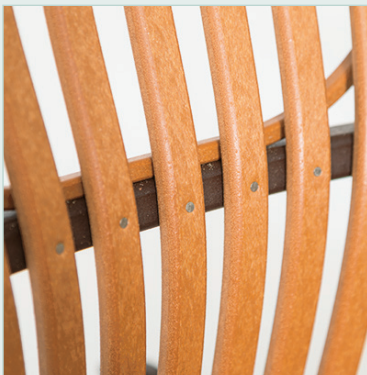

Poly Lumber is made of recycled high-density polyethylene materials, such as recycled milk bottles. Poly Lumber is known to resist splintering and it never rots, and also resists termites. The texture and appearance are similar to a wood product. Poly Lumber does not need chemical weatherproofing treatments.

We specialize in high quality detail-oriented furniture that will last many years with normal use; however we cannot guarantee anything if this furniture is used in a high traffic commercial area.

## *Benefits of Poly*

- Eco friendly
- Chemical free
- Easy to clean
- Low maintenance
- Lasts longer than wood
- Retains color
- Resists mildew
- Weather resistant

Our special bending process allows for our unique designs. Higher density poly material increases our trim strength.

Curved parts are carefully crafted for uniformity.

We use all stainless steel hardware.

Classic rockers, lumbar rockers, and benches feature mortise and tenon construction.
